

Telescoping Video Inspection System with LED display

Features :

Portable, View Angle-Adjustable, View Hard-to-view Space

Applications :

Law Enforcement, Search and Rescue, Industrial Safety, Vehicle Inspection, Cargo Inspection, Container Inspection

Specifications :

Camera Sensor	1/4" Color CCD
LED Light	8 Pieces White Lights
Pixels	270000(NTSC) 320000(PAL)
View Angle	60°
Horizontal Resolution	420 TV Lines
Working Voltage	DC 12V
Current Consumption	80 mA
Camera Length(Includes Flexible Rod)	45 cm
Camera Diameter	23 mm

3.5" LED display Monitor :

Monitor	3.5 Inch TFT LCD
Pixels	300x480
Working Voltage	DC 12V
Current Consumption	600 mA
Store Temperature	-20 to + 85
Operating Temperature	0 to + 70

Telescopic Shaft:

Extendable Shaft Length	125-270 cm
Maximum Length Including Camera	315 cm

Battery:

Battery Capacity	2200 mAH
Input Voltage	AC 100-240V DC 12.8V 800mA

Box:

Box Size	104.5x31.5x14cm
Gross Weight	8kg
